# **Chairman's Message**

**Dear Stakeholders,**

## **Greetings from Urja!!**

Growth is not just a function of numerological permutations and combinations.

Numbers are simply a manifestation of growth, which is actually a performance-backed process of progressive continuity.....

The year in review was marred by an ongoing strained global environment. While the global economy has showed signs of recovery from the challenging environment of the last three to four years, there is still some way to go.

The US economy has demonstrated enough positive momentum for regulators to begin reduction in levels of fiscal intervention; while the performance in Europe remains cautious, with need for further consolidation. Japan embarked on its own expansionary monetary policy to consolidate the initial positive results, while economies like China and Russia witnessed noticeably lower growth. China seems to be shifting its attention more towards domestic consumption than exports.

At home, aggressive steps taken by the Finance Ministry to address the twin problems of growing trade deficit and weak rupee, as well as some innovative and forward-looking policies by RBI helped India defend its currency from the impact of global events. All of this serves to remind us that not only has the global economy become increasingly integrated, but heightened volatility in the operating environment is expected to be a permanent feature.

Notwithstanding various domestic and global issues, the financial year ended March 2014 was another successful year, where despite a challenging environment; our business grew marginally ahead of competition. Several innovations were launched to meet the emerging needs and aspirations of our consumers. We expanded our reach and further strengthened our distribution so that we can serve our consumers better with our wide range of product offerings.

Now coming to the business in FY 2014, we find that while the overall market sentiment was stable, we transitioned into a more mature solar off-grid and batteries market with focus on higher value products. In this FY the company's total revenue stood at ₹ 114.37 crores on a standalone basis and the PBIT stood at ₹ 1.34 crores during the year.

We are also seeing the steady development of a growth and performance culture characterized by strong employee engagement, teamwork, the drive for operational excellence and accountability for results. This is making us more agile, entrepreneurial and innovative. Notably, your company is taking sound steps towards strengthening our core off grid solar products range businesses and recently we have invested in a battery manufacturing unit which will be a backward integration for our business. We have taken a slew of steps to cut costs, be innovative and employ technologically superior processes to weave in better efficiencies.

I thank you all Urja employees, shareholders, and associates who are its real strength and who are working incessantly in these challenging times to tide over all odds.

**Warm Regards,**

**Puneet Mohlai**

Chairman

**New Delhi, 13<sup>th</sup> August, 2014**

**EXPLANATORY STATEMENT IN COMPLIANCE OF SECTION 102(1) OF THE COMPANIES ACT,**

## **2013 ("the Act")**

As required by Section 102 of the Companies Act, 2013 (the Act), the following Explanatory Statement sets out all material facts relating to the business mentioned under Item Nos.2 to 8 of the accompanying Notice:

### **Item No. 2:**

This Explanatory Statement is provided though strictly not required as per Section 102 of the Act.

Mr. Harijanto Soepangkat Widijaja retires at the ensuing Annual General Meeting in terms of his appointment. As per the provisions of Section 152(6)(e) of the Act, at the Annual General Meeting at which a director retires, the Company may fill up the vacancy by appointing the retiring director or some other person thereto.

As per the provisions of Section 149(1) of the Act and amended Clause 49 of the Listing Agreement, the Company should have atleast one woman director. Keeping in view the above legal requirements and in deference to Company's shareholders' wishes, the Board of Directors have proposed to appoint Mrs. Nupur Garg to fill up the vacancy which would arise consequent to the retirement of Mr. Harijanto Soepangkat at the ensuing Annual General Meeting.

Mr. Harijanto Soepankat Widijaja has been a Director of the Company since 31<sup>st</sup> October, 2008. He held the position of Non- Executive Independent Director since his appointment till date. Your Directors place on record the valuable guidance, support and advice extended by him during his tenure as Director.

The Company has received a notice in writing from a member under Section 160 of the Act proposing the candidature of Mrs. Nupur Garg for the office of Independent Director of the Company. Mrs. Garg holds a Bachelor's Degree in Humanities and is a Chartered Accountant by profession. She has vast experience in the areas of strategy, Taxation, structured and corporate finance. She also has good experience of Audits.

She is not disqualified from being appointed as a Director in terms of Section 164, Section 149 read with Schedule IV of the Act and has given her consent to act as a Director. She does not hold any equity shares in the Company.

The Board recommends the Ordinary Resolution set out at Item No. 2 of the Notice for approval by the shareholders.

None of the other Directors/Key Managerial Personnel of the Company/their relatives except Mrs. Nupur Garg herself is, in any way, concerned or interested, financially or otherwise, in the said resolution.

### **Item No. 3:**

This Explanatory Statement is provided though strictly not required as per Section 102 of the Act.

PVR-N & Co., Chartered Accountants have been the Auditors of the Company since 2009-10 and have completed a term of five years. As per the provisions of Section 139 of the Act, no listed company can appoint or re-appoint an audit firm as auditor for more than two terms of five consecutive years. Section 139 of the Act has also provided a period of three years from the date of commencement of the Act to comply with this requirement.

In view of the above, PVR-N & Co., being eligible for re-appointment and based on the recommendation of

the Audit Committee of Directors, the Board of Directors has, at its meeting held on 13<sup>th</sup> August, 2014, proposed the appointment of PVR-N & Co. as the statutory auditors of the Company for a period of one year to hold office from the conclusion of this AGM till the conclusion of the 23rd AGM of the Company to be held in the year 2015.

The Board recommends the Resolution at Item No. 3 of the accompanying notice for approval by the Members of the Company.

None of the Directors and Key Managerial Personnel of the Company or their respective relatives are concerned or interested in the said Resolution.

**Item No. 4:**

The Company had, pursuant to the provision of Clause 49 of the Listing Agreement entered with the Esteemed Bombay Stock Exchange, appointed Mr. Divyanshu Verma as the Independent Director of the Company. The Nomination and Remuneration Committee has recommended the appointment of Mr. Divyanshu Verma as an Independent Director. Keeping in view the necessary experience and recommendations, the Board of Directors in their meeting held on 28<sup>th</sup> May, 2014 appointed him as Independent Director w.e.f. 28<sup>th</sup> May, 2014 to 27<sup>th</sup> May, 2019 subject to the approval of members.

Mr. Divyanshu Verma is an M.tech from IIT,Delhi and e-GMP alumnus of IIM, Bangalore. He has more than 16 years of experience in Software Industry and 4 years of International Work experience. He has been in Individual contributor role for more than 10 years and in management role for 6 years. He has extensively worked in product development organizations and has extensive experience in developing world class enterprise products in technologies such as Linux Kernel Development, Cloud Computing with focus on IaaS (Infrastructure as a Service) etc. Beyond that, he is a regular speaker at the various Openstack foundation events and is one of the key contributors of Open Stack India meet up group.

The Company has received a notice in writing from a member under Section 160 of the Act proposing the candidature of Mr. Verma for the office of Independent Director of the Company. Mr. Verma has given a declaration to the Board that he meets the criteria of independence as provided under Section 149(6) of the Companies Act, 2013. The copy of draft letter of appointment setting out the terms and conditions of his appointment is available for inspection by the members during the business hours on any working day.

The Board recommends the Resolution at Item No.4 of the accompanying notice for approval by the Members of the Company.

None of the other Directors/Key Managerial Personnel of the Company/their relatives except Mr. Divyanshu Verma himself is, in any way, concerned or interested, financially or otherwise, in the said resolution.

**Item No. 5:**

# Management Discussion & Analysis Report

**Financial Year 2013-14 proved a challenging year, with economic growth stagnating across Europe and on a downward trend in India. In the domestic market, consumer sentiment was impacted due to persistently high inflation through Financial Year 2013-14. Nevertheless, the Company maintained marginal revenue growth rate in business. The aspiration for being green, innovating new efficiencies and driving consumer satisfaction are internal factors that help us cement our leading position across product segments and take ourselves to the next level of growth. Yet there are many external factors that affected Urja. The Management Discussion and Analysis gives us insights of each of them in brief.....**

## ECONOMIC OVERVIEW

### Global Economy

The global GDP growth is estimated to have come down to 2.4% in 2013 from 2.5% recorded in the previous year, as per World Bank. The developed economies that started to rebound in late 2012 continued to grow in 2013 as well. However, their pace of growth is estimated to be lower at 1.3% in 2013 as against 1.5% in 2012. Whereas the developing economies GDP growth in 2013 is estimated at 4.8% same as in 2012.

The world's largest economy U.S. has shown signs of recovery during the year, which has given the U.S. Federal Reserve the confidence to start tapering of its quantitative easing program. Also, the Euro region has shown signs of recovery supported by the European Central Bank. However, the current issue of rising NPA in China and increased liquidity tightening would lead to the slowdown in its economic growth.

The Sub-Saharan Africa has witnessed robust economic activities during the year 2013. GDP growth in the region has further strengthened to 4.7% in 2013, up from 3.7% in 2012. The strong growth was supported by robust investment in the resource sectors and public infrastructure. Economic growth in sub-Saharan Africa is forecast to accelerate to 5.2% in 2014, driven by increasing investment to exploit the region's natural resources and develop infrastructure.

The developing countries of the Middle East and North Africa region during the year 2013 have witnessed contraction in economic growth of 0.1%. This was largely due to the regional turmoil and weak export demand. However, the year 2014 is witnessing a gradual recovery and is expected to grow at 1.9% in 2014. Recovery in oil production, industrial activity and exports is contributing to the pick-up in growth this year. However the growth remains fragile where security challenges in several countries is a key constrain.

The global real GDP growth is expected to be 3.2% in 2014 and 3.4% in 2015 as per World Bank's report Global Economic Prospects. The global growth is expected to be supported more by the developed economies than the developing economies.

### Indian Economy

The growth in Indian infrastructure industry remained tepid, with regulatory hurdles like environment clearance and land acquisition issues weighing heavily on the industry. Industrial production has also been very sluggish, with sectors like cement witnessing a flat growth in demand. The growth in Index of Industrial

Production, the index that measures industrial activities, during the year has been negative at -0.1%. As per Central Statistical Organisation (CSO) provisional estimates India GDP is estimated to have grown at 4.7% in 2013-14.

Inflationary pressures in the economy and currency volatility persisted for most of the year except when the central bank intervened to control it.

However, sentiments have already reversed, with a new proreform Government getting a thumping victory and a clear mandate. This is expected to significantly turnaround the investment cycle and kick start economic activities, leading to better growth prospects.

### **RENEWABLE ENERGY IN INDIA**

The share of energy produced from renewables in India has gone up from 2% in 2003-04 to 12% in 2013-14. In the renewables segment solar energy has the highest potential with equivalent energy potential of about 6,000 million GW of energy. India's installed capacity of solar power increased from 941.24 MW in 2011-12 to 1,645.61 MW in 2012-13 and in 2013-2014, 2632MW.

Renewable energy is expected to play a vital role not only from an environment angle but more importantly from the energy security perspective. Currently, more than 100 countries have renewable energy targets, more than 40 developing nations have introduced feed-in tariffs, and countries from Saudi Arabia to South Africa are making big bets on renewable as a growth market. Many countries are also exploring carbon-trading markets, including the EU, South Korea and Australia. Last Year, China launched pilot trading projects in five cities and two provinces, with a goal of national program by 2015.

### **INDIAN PV MARKET**

The Indian SPV market is estimated to grow from USD 1.05 billion in 2012 to USD 2.05 billion in 2013 given the robust demand generated from the JNNSM (Jawaharlal Nehru National Solar Mission). The demand for chemicals and materials used in the manufacture of cells and modules is to grow at a CAGR of 22.2% till 2015. During the same period the demand for module components is estimated to grow at a CAGR of 25%.

The Indian Solar Energy sector has been growing rapidly, in the past few years, majorly due to Government's initiatives such as tax exemptions and subsidies. In last year the Company had come across many ups and downs due to energy crises being face by the country as a whole. Though there was growing demand for electricity, the failure on the part of conventional sources of energy to cater to the demands. The main reason behind the shortage of electricity is that there is no proper grid connectivity in the rural areas.

Presently, there is lot of companies who would like to enter in long term Solar Power Purchase agreements and this particular industry is looking very positive as the cost of Solar Power Generation is coming down consistently. Therefore, the company is anticipating a revival and a great future for solar industry. With the Company's One Time Settlement proposal being under consideration by Banks which is most likely to be accepted, the Company will be free from its major liabilities and will be in a position to encash the opportunities in the Solar Power space that will be available to the company in near future.

Cost, efficiency and price are fundamental drives of PV industry. Innovations across the value chain will enable higher margins for PV industry. Photovoltaic's being very environment friendly and solar energy being a much cleaner source of energy, Urja aspires to drive opportunities by making available solar power to all kinds of consumers by reducing the costs.

### **JAWAHARLAL NEHRU NATIONAL SOLAR MISSION (JNNSM)**

Under Phase I of the JNNSM, a solar PV capacity of 450 MW was installed in India by end of September 2013 against the targeted capacity of 500 MW (Bridge to India). Separately, 48 MW of PV projects were commissioned under the Migration scheme and 90.8 MW under the Rooftop PV and Small Solar Power Generation Programme (RPSSGP) Scheme.

The Ministry of New and Renewable Energy released the draft guidelines for 750 MW of solar projects under Phase II Batch I of the JNNSM in April 2013. However, the release of final implementation guidelines was made only in October 2013. The delay in announcement of final guidelines would result in no significant capacity addition under the JNNSM in CY 2014.

Under the final implementation guidelines, 375 MW of the targeted 750 MW of solar projects need to be developed using domestically manufactured solar cells and modules. This provides an opportunity to domestic cell manufacturers to increase their utilization rates and participate in the implementation of Phase II of the JNNSM. The Government of India under Jawaharlal Nehru National Solar Mission (JNNSM) has set an aggressive target of 20,000 MW by 2022 (13<sup>th</sup> Five Year Plan). In addition, many state governments have announced state policies on solar energy aided by the fledgling Renewable Energy Certificate (REC) Government initiative. A total potential of 64,000 MW by 2022 is estimated by business research analysts.

The domestic solar manufacturing industry that is reeling under the impact of export of solar PV cells and modules from specific markets at dumped prices need the simultaneous protection in the form of Anti Dumping Duties and imposition of Domestic Content Regulation. This is pivotal to achieve MNRE's target to develop a domestic manufacturing base with a capacity of 5,000 MW by 2017. Providing a further push to solar energy, the Finance Minister, in the interim budget for 2014-15, added 4 Ultra Mega Solar Power Projects each with the capacity of over 500 MW to the National Solar Mission in 2014-15.

### **SOLAR PHOTOVOLTAIC (PV) POWER PROJECTS**

The Company is developing various Solar Photovoltaic power projects aggregating to 80 MW located in the states of Rajasthan and Chhattisgarh. These projects are in different stages of development. Solar Photovoltaic (PV) Power projects by nature have long gestation periods and require clearances from various authorities before commencement of construction activities. Some of these projects have achieved various milestones and are likely to be developed in the next few years.

### **SOLAR PHOTOVOLTAIC (PV) OFF GRID SOLUTIONS**

Rising rural demand has been the cause of resilience of the Indian markets, despite the slowdown in urban markets. The market for Consumer Solar Goods is marked by the existence of a large unorganised and unbranded sector that co-exists with a few organised and branded players. With increase in rural incomes, there is a marked shift in preference for branded goods made by organised players. This shift will have welcome consequences for our branded solar off-grid products, as our quality, finish, functionality and other benefits will win hearts, minds and wallets in increasing numbers. This shift from unbranded to branded is also clearly visible in the urban markets.

The Government is also focusing electrification of rural areas through various schemes. During the year, your Company was approved as Channel Partners by the Ministry of New and Renewable Energy as Photovoltaic System Integrators. Recently the Company has developed the Range of Small Power Packs which are very useful for the Areas where there is shortage of Electricity or there is no electricity.

These Systems are very effective and are picking up good market in the States of Uttar Pradesh, Jharkhand, Rajasthan, Jammu & Kashmir, Karnataka and others.

These Systems starts with a range of 5w till 75 w each. These Systems comes with the following exciting features :

- Easy Operations;
- Low Cost;
- Maintainence Free;
- FM Player
- Mobile Charger
- DC Supply Battery Backup
- Night Light
- Complete Multimedia Operations;
- Remote Controll Operations.

Further, we have strengthened our regular product range consisting of :

- Solar LED Street Lights;
- Solar Roof Top Systems;
- Solar Batteries;
- Solar Lantern;
- Solar MiniHome Light;
- Solar Inverters;
- Solar Charge Controllers
- Solar Modules and Many more.....

India's demographic dividend is another factor that will benefit the organised sector. As the young working population benefits from increased incomes, their aspirational desire for superior quality and aesthetically designed products will increase, helping the organised sector to clock growth at a rapid pace. Given the shifting preferences, a large number of small players and cheap imports have made the market highly competitive at the lower price end. This requires our quality products to speak louder and communicate more about the value proposition we offer.

### **CAPEX / EXPANSION PLANS**

With lot of expansion plans in process, there is need of capital expenditure for the plans laid down by the Company. Recently the company has also invested in Bharat Accumulators Ltd., Battery Manufacturing Unit located in Bahadurgarh as a wholly owned subsidiary, which will be a backward integration for the business plans laid down for Urja's Solar Business Growth.

## FUTURE OUTLOOK

Worldwide the total solar capacity installed last year was about 139 GW of Solar panels. In India the total employed last year was under 2700 MW. Therefore the entire PV Business in India is either based on importing Solar Panels from abroad or exporting the finished goods to Europe or North America.

India has been ranked 7<sup>th</sup> worldwide for solar photovoltaic (PV) cell production and secure 9<sup>th</sup> rank in solar thermal power generation. This capacity is growing rapidly due to the entry of various private players in manufacturing of solar energy equipments. According to the authors, the Indian solar energy sector is estimated to grow 25% in next few years. 51 Solar Radiation Resource Assessment stations have been installed across India by Ministry of New and Renewable Energy (MNRE) to monitor the availability of solar energy. The amount of solar energy produced in India in 2007 was less than 1% of the total energy demand. The grid-interactive solar power as of December 2010 was merely 10 MW. Government-funded solar energy in India only accounted for approx. 6.4 MW-yr of power as of 2005. However, Indian is ranked number one in terms of solar energy production per watt installed with an insolation of 1700 to 1900 kilowatt hours per kilowatt peak. 25.1 MW was added in 2010 and 486.3 MW in 2011. By the end of March 2014 the installed grid connected photovoltaic's had increased to 2632MW.

*India expects to install an additional 10,000 MW by 2017 and a total of 20,000 MW by 2022.*

Urja Solar has been growing constantly and is projected to grow further in future due to Government's initiatives such as tax exemptions and subsidies. Also with huge decline in the cost of solar power it has become more competitive than diesel. The Indian solar energy industry exhibits huge potential to become one of the top producers of solar energy in the world in coming years. The sector is now receiving continuous support from both central and state governments.

## STRENGTH & OPPORTUNITIES

Solar energy can be produced through grid as well as off grid. The ability to produce electricity off the grid is a major advantage of solar energy industry for people who live in isolated and rural areas where electricity is not available. Intensive penetration into rural India offers great opportunity to the Company's new launches for example its Solar Power Pack Range launched in the current year which is resulting in sales pick up. Similar success can be replicated across other product categories. The products offered are environment friendly and are being operated by the Solar modules which has a long life of 25 years and pay back of maximum 10 years.

Growing business with balanced Capex expenditures is set to boost the operating cash flows from the Indian business. This is set to strengthen the balance sheet, which is desirable for sustainable and long-term growth.

In India we have been focusing on the consumer oriented businesses. After having established ourselves amongst the top few companies in business segment that we operate in, led by best quality products, innovations, large product basket, established brand presence across. Fall in the investment prices on solar power generation equipments inducing investors to make better investment.

The world over, awareness is improving about energy efficient lighting products, mainly the Solar operated light emitting diode( LEDs) products. This has spurred a lot of investments in domestic manufacturing , which has brought down cost of production. This is making it possible to innovate newer and newer applications, which has caused a sustainable, strong double-digit growth in the industry LEDs across the world. Urja is well placed to capture this global opportunity.

## **THREATS, RISKS & CONCERNS**

The highly capital intensive nature of the Energy industry, coupled with high working capital requirements, with cost escalations would result into higher breakeven levels. Your Company has been prudent in ensuring that it uses a judicious mix of funding to mitigate this factor, while implementing its expansion plans.

There is tough competition in the industry. We at Urja take competition as a challenge taking in consideration the potential of the industry. Transforming challenges into opportunities has been a practice at Urja.

Government Policies and procedures for subsidies on the products are cumbersome. We are trying to innovate and sell our products at lower costs so as to satisfy the customer and stop going for the traditional subsidy products.

As solar module and batteries comprises the major portion of the raw material the inflationary trends in the input costs could create a strain on operating margins. At Urja, the battery manufacturing unit acquisition has been done to minimise the effect of volatility in raw material prices. However this will also be affecting short term as over a period of time the history has shown that our industry adjusts the final product pricing accordingly.

## **RISK MANAGEMENT**

Risk management is an integral function and is embedded across all of the business processes undertaken by your Company. It is essential to identify and manage risks to reduce uncertainties and ensure continuity of operations. To manage risks, your Company's risk management committee continuously assesses and monitors business practices, ensuring the smooth flow of operations and adhering to stringent guidelines. # Independent Auditors' Report

**To the Members of Urja Global Limited**

## **Report on the Financial Statements**

We have audited the accompanying financial statements of Urja Global Limited (hereinafter referred to as "the Company"), which comprises the Balance Sheet as at 31<sup>st</sup> March, 2014 and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act") read with General Circular No. 8/2014 Dated 4<sup>th</sup> April 2014 issued by the Ministry of Corporate Affairs. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31<sup>st</sup>, 2014;
- b) in the case of the Statement of Profit and Loss, of the profit for the year ended on that date; and
- c) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

## Report on Other Legal and Regulatory Requirements

## **Note No. 19**

### **Significant Accounting Policies and Other Notes to Accounts**

#### **1. Significant Accounting Policies:**

##### **a) Basis of Preparation**

The financial statements are prepared and presented under the historical cost convention on the accrual basis of accounting and in accordance with the Accounting Standards notified in the Companies (Accounting Standard) Rules, 2006 and the relevant provisions of the Companies Act, 1956 read with General Circular No. 8/2014 Dated 4<sup>th</sup> April 2014 issued by the Ministry of Corporate Affairs., to the extent applicable. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year

##### **b) Use of Estimates**

The preparation of financial statements requires management to make assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities on the date of the financial statements and the reported amounts of revenues and expenses. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognized in the periods in which the results are known/materialize.

##### **c) Cash and Cash Equivalents**

Cash & Cash Equivalent consists of Cash in hand, Bank balances and Bank Deposits.

##### **d) Cash Flow Statement**

Cash flows are reported using the indirect method, as per AS-3, issued by the ICAI. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

##### **e) Fixed Assets & Depreciation**

Fixed Assets are stated at cost of acquisition less accumulated depreciation thereon. Direct costs are capitalized until assets are ready to be put to use. Expenses of the projects/mines under development are booked to development account till the projects/mines are bought to revenue account.

Depreciation on the Fixed Assets has been provided on the basis of straight line method as per rates prescribed under Schedule XIV of Companies Act, 1956 as amended from time to time.

##### **f) Investments**

Long term investments are carried individually at cost less provision for diminution, other than temporary, in the value of such investments determined on an individual basis.

##### **g) Inventories**

Raw materials, components, stores and spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written

down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost

Stock in trade in the books is considered in the accounts where the variance between book stock and measured stock is upto +/- 5%, and in case where the variance is beyond +/- 5% the measured stock is considered. Such stocks are valued at lower of cost and net realizable value.

#### **h) Provision & Contingencies**

The Company recognizes a provision when there is a present obligation as a result of an obligating event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure of contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources.

#### **i) Income Tax**

Taxation is accounted on the basis of the "Liability Method" which is generally followed in India. Provision is made for income tax based on computation after considering rebates, relief and exemption under the Income Tax Act, 1961.

In accordance with the Accounting Standards 22 "Accounting for taxes on Income" issued by the Institute of Chartered Accountants of India, Deferred Tax Liability has been calculated on timing differences between the accounting income and the taxable income for the year and quantified using the tax rate enacted or substantively enacted as on the Balance Sheet date.

#### **j) Provision, Contingent Liabilities & Contingent Assets**

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are not recognized but are disclosed in the notes. Contingent Assets are neither recognized nor disclosed in the financial statement.

#### **k) Provision for Gratuity**

No provision for gratuity has been made as the provisions of Payment of Gratuity Act, 1972 are not applicable.

### **2) Other Notes to Accounts**

- i. In the opinion of Board of Directors, the aggregate value of Current assets, Loans and Advances are realisable in ordinary course of business and will not be less than the amount at which these are stated in the balance sheet.

# **Independent Auditors' Report**

TO THE BOARD OF DIRECTORS OF URJA GLOBAL LTD

## **Report on the Consolidated Financial Statements**

We have audited the accompanying consolidated financial statements of Urja Global Limited (hereinafter referred to as "the Company"), and its subsidiary constitute ("the Group"), which comprise the Consolidated Balance Sheet As at 31<sup>st</sup> March, 2014, consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

### **Management's Responsibility for the Consolidated Financial Statements**

The Company's Management is responsible for the preparation of these consolidated financial statements that give a true and fair view for the consolidated financial position, consolidated financial performance and consolidated cash flow of the Group in accordance with the accounting principles generally accepted in India including the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act") read with General Circular No. 8/2014 Dated 4th April 2014 issued by the Ministry of Corporate Affairs. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor consider internal control relevant to the Company's preparation and presentation of the consolidated financial statement that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing opinion the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

As stated in the Other Matters paragraph below, our opinion, in so far as it relates to the amounts and disclosures included in respect of the subsidiary not audited by us, is based solely on the reports of such other auditors.

### Opinion

In our opinion and to the best of our information and according to the explanations given to us, the consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the consolidated Balance Sheet, of the state of affairs of the Company as at March 31<sup>st</sup>, 2014;
- (b) in the case of the consolidated Statement of Profit and Loss, of the profit for the year ended on that date; and
- (c) in the case of the consolidated Cash Flow Statement, of the cash flows for the year ended on that date.

### Other Matter

We did not audit total assets of ₹ 4,435.32/- Lakhs as at 31<sup>st</sup> March, 2014 and total revenues of ₹ 2.40 Lakhs for the year then ended, included in the accompanying consolidated financial statements in respect of subsidiary of the Company, whose financial statements and other financial information have been audited by other auditor in accordance with accounting principles generally accepted in India. Our opinion is not qualified in respect of this matter.

## **Notes No. 22**

### **1 SIGNIFICANT ACCOUNTING POLICIES**

#### **a) Basis of Preparation**

The financial statements of the Group have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The Group has prepared these financial statements to comply in all material respects with the accounting standards notified under the Companies (Accounting Standards) Rules, 2006, (as amended) and the relevant provisions of the Companies Act, 1956, read with general circular 8/2014 dated 4<sup>th</sup> April, 2014 issued by Ministry of Corporate Affairs. The financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

All assets and liabilities have been classified as current or noncurrent as per the Group's normal operating cycle and other criteria set out in the Revised Schedule VI to the Companies Act, 1956. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current/noncurrent classification of assets and liabilities.

#### **b) Use of Estimates**

The preparation of financial statements are in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts assets, liabilities, revenues and expenses during the reported period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets, liabilities, revenues and expenses in future periods. Changes in estimates are reflected in the financial statements in the period in which changes are made and if material, their effects are disclosed in notes to accounts.

#### **c) Principles of Consolidation**

The consolidated financial statements relate to Urja Global Limited ('the Company') and its Subsidiary Company. The consolidated financial statements have been prepared on the following basis:

- a) The financial statements of the parent and its subsidiaries have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, revenues and expenses after eliminating intra-group balances/ transactions and resulting profits in full. Unrealized profit/ losses resulting from intra-group transactions has also been eliminated except to the extent that recoverable value of related assets is lower than their cost to the group.
- b) The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the Company's separate financial statements. Differences in accounting policies have been disclosed separately.
- c) Minority's share in net profit of consolidated subsidiaries for the year is identified and adjusted against the income of the group in order to arrive at the net income attributable to shareholders of the Company.

d) Minority interest's share in net assets of 'the Group' is identified and presented in the consolidated balance sheet separate from liabilities and the equity of the Company's shareholders

#### **d) Tangible Fixed Assets**

- (i) Tangible assets are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises of purchase price, taxes, duties, freight and other incidental expenses directly attributable and related to acquisition and installation of the concerned assets.
- (ii) Subsequent expenditure related to an item of tangible asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day to day repair and maintenance expenditure are charged to the statement of profit and loss for the period during which such expenses are incurred.

#### **a) Intangible Assets**

Intangible assets are recognised if it is probable that the future economic benefits that are attributable to the asset will flow to the Company and cost of the assets can be measured reliably.

#### **b) Goodwill**

The excess of cost to the parent of its investment in subsidiaries over its portion of equity in the subsidiaries at the respective dates on which investment in subsidiaries were made is recognised in the financial statements as goodwill. The parent's portion of equity in subsidiaries is determined on the basis of the value of assets and liabilities as per the financial statements of the subsidiaries as on the date of investment.

#### **c) Depreciation and Amortisation**

Depreciation on tangible fixed assets are provided on Pro-rata basis on straight line method using the rates and in the manner as prescribed in Schedule XIV of the Companies Act, 1956 which approximates the useful life of the assets estimated by the management and for group Companies based on management estimate of useful economic life as follows.

#### **d) Inventories**

Raw materials, components, stores and spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost

Stock in trade in the books is considered in the accounts where the variance between book stock and measured stock is up to +/- 5%, and in case where the variance is beyond +/- 5% the measured stock is considered. Such stocks are valued at lower of cost and net realizable value.

#### **e) Provision & Contingencies**

The Company recognizes a provision when there is a present obligation as a result of an obligating event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure of contingent liability is made when there is a possible obligation or a present

obligation that may, but probably will not require an outflow of resources.

**f) Income Tax**

Taxation is accounted on the basis of the "Liability Method" which is generally followed in India. Provision is made for income tax based on computation after considering rebates, relief and exemption under the Income Tax Act, 1961.

In accordance with the Accounting Standards 22 "Accounting for taxes on Income" issued by the Institute of Chartered Accountants of India, Deferred Tax Liability has been calculated on timing differences between the accounting income and the taxable income for the year and quantified using the tax rate enacted or substantively enacted as on the Balance Sheet date.

**g) Provision, Contingent Liabilities & Contingent Assets**

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are not recognized but are disclosed in the notes. Contingent Assets are neither recognized nor disclosed in the financial statement.

**h) Provision for Gratuity**

No provision for gratuity has been made as the provisions of Payment of Gratuity Act, 1972 are not applicable.

**3) Other Notes to Accounts**

- i) In the opinion of Board of Directors, the aggregate value of Current assets, Loans and Advances are realisable in ordinary course of business and will not be less than the amount at which these are stated in the balance sheet.
- ii) Deferred Tax Liability for the year of ₹ 8439/- as per Accounting Standards 22 on Accounting for Taxes on income pertaining to the timing between the accounting income and the taxable income has been recognized by the management in the Profit & Loss Account.
- iii) In the opinion of the company management, the operations of the company are considered as single segment hence AS-17 on Segment reporting issued by the Institute of Chartered Accountants of India is not applicable.
